PRESIDENT TAFT LAUDS ORGANIST

Chief Magistrate Thanks Joseph Smith and Prof. Mc-Clellan for Recital.

"I should like to be permitted to thank the organist and those who have assisted him for the treat during this short period-for it has been short-in which we have been permitted to listen to those choice melodies, rendered under conditions that make them so delightful. I thank you.'

As the strains of the national hymn, 'My Country, 'Tis of Thee," died away, President William H. Taft expressed his thanks to Professor J. J. McClellan and those who had assisted him in the special organ recital given Saturday morning at the tabernacle.

Then turning to President Joseph F.

Smith of the Church of Jesus Christ of Latter-day Saints, who, with Mrs. Bathsheba Smith, one of the oldest living members of the church, had been seated beside him during the recital, President Taft shook hands with each, said "Thank you," and "Good-bye," and turning, left the tabernacle, to take part in the further program of the day. The special recital program, given for the benefit of the President and the members of his party, with a few of the local committee, was one of the interesting features of the second day of

President Taft's visit to Salt Lake. The program was made up of several choice selections, intended to show to good advantage the beauties of the great organ in the tabernacle, and as the various selections were interpreted by the master hand of the organist, the President sat a close listener to the pro-

Features of Day.

The recital, which was the third special feature of the day, had been set for 11 o'clock, following the return of the party from Saltair, but it was about 11:30 o'clock when the party made its appearance at the tabernacle. For an hour before the time set for the start of the program a considerable crowd had begun to collect at the south entrance to the temple grounds, where it was supposed the party would first make its appearance. The arrangements made by the police and committee provided for the entrance of the automobiles bearing the party by way of the north entrance to the grounds. A crowd of a hundred or more, who learned of the entrance for some time before the arrival of the party and waited patiently for the appearance of the city's distinguished guest.

Several members of the police department were stationed at an early hour at the entrance, and before the arrival of the presidential party ropes were stretched at each side of the roadway to keep the crowd at a distance. About 11:25 a.m. an automobile, bearing a detachment of police under a sergeant, dashed up to the gate and the officers began their arrangements for the arthe string of automobiles bearing the party was seen approaching from West

Temple street and the Temple street and the crowd started a

The automobile carrying S. M. Barlow, chief of police, and other officers, came first, closely followed by that of the President, Governor William Spry, Captain Archibald W. Butt and James Sloan, jr., special agent. The two machines passed quickly through the gates into the grounds, and, after a short halt, the other automobiles followed.

Tabernacle Decorated.

The President and members of the party accompanying him were admitted to the tabernacle by the east entrance and were shown into the bal-The interior of the tabernacle had been elaborately decorated with flags and bunting in honor of the distinguished guest, the front of the balcony and the organ and rostrum being partially hidden behind flags and bunting. Below the big star on the organ had been placed a large picture of the President, surrounded by flags, while at the rear of the auditorium, in the balcony, was stretched a huge banner, bearing the words "Our President."

being Governor Spry, while John Hays Hammond, Senator Reed Smoot, Mayor J. S. Bransford and W. J. Halloran, president of the Commercial club, also were near him, Captain Butt taking a seat at the left end of the row. A moment later President Joseph F. Smith and Mrs. Bathsheba Smith, widow of George A. Smith, made their appearance and were shown to seats at the left side of President Taft. The party admitted to the recital numbered about 150, some of the number, who had been a little late in arriving from the train, coming in after the second number on

Organist McClellan had arranged the program during the morning, and each number was announced before its rendition. The first selection was the familiar overture to "Tannhaeuser," by Wagner. The President and other visitors listened with interest to the sonorous tones from the great instru-

Following this was a triple number by Organist McClellan, the Mignon gavotte, by Thomas, the airy lightness of which was in marked contrast to the number which had preceded it. The Communion in G, by Batiste, which, with its wonderful runs and trills, given in the arrangement by the organist, showed many beauties of the organ, and the old melody, "Home, Sweet Home," also calling forth beauty

of tone seldom heard on an organ. Patriotism Thrills Audience.

Next on the program were two solos by Mrs. Emma Ramsey Morris, sopra-"Fear Not Ye, Oh Israel," by Dudley Buck, and "The Flag Without a Stain," by White, both sung in a splendid manner, Organist McClellan accompanying.

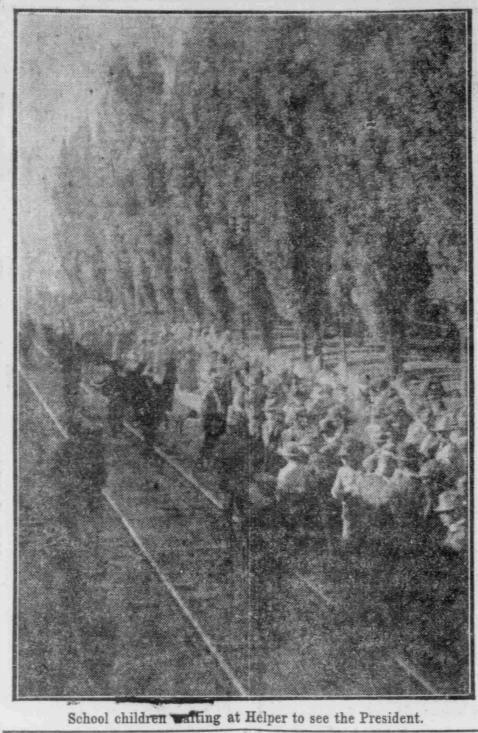

Two violin solos, the "Traumerel" of Schumann and "Berceuse," by Sauret, were next, the violinist being Willard Weihe, who was accompanied on the

Handel's famous Largo was the closing number announced for the recital, but when the notes of this melody had died away Organist McClellan played a stanza from "My Country, 'Tis of Thee," the members of the party rising to their feet during the playing of the hymn.

There was a moment's pause at the dent and members of his imm.

took their departure, President Faft bidding farewell to the assemblage in the words, "Good morning, gentlemen."

close of the piece, and then President Taft expressed his thanks to those who had given the program, and quietly supplemented his remarks with an ex-

PRESIDENT TAFT IS ENTERTAINED BY BUS-INESS MEN OF SALT LAKE

that we should attend to that and regu-late it, so far as we can. Of course it is a subject that can't be dealt with theo-retically; it can't be dealt with on math-

ematical principles.
"Certainly you are the last that would these arrangements, was assembled at like to have a mileage rate adopted be tween here and the eastern coast, and we have got to adopt it in some way so as to introduce a new—well, I won't say as to introduce a new wen, I won't say a new but a system adapted to the conditions as we understand it, and bringing out justice so far as we can. Now, the same thing is true with respect to the anti-trust clause.

That was a law passed to meet new onditions that our ancestors did not an-icipate except by way of giving us the ower to control interstate commerce, illustrating, as it does—I mean the inser-tion of that commerce clause—the mar-velous foresight of the constitution framers, that in so short a document they could make provision for so many unfore-

More Power for Commission.

'Now, with respect to the interstate commerce commission I think they ought to have the power to classify merchan-dise; that is, to hear complaints with ref-erence to classification of merchandise so that articles shall be put in their proper class. It seems to me that is so clear that it can hardly need argument, because the rate that an article pays de-pends upon the class in which it is put, and then upon the rate imposed upon that

'Now, then, if the railroad company can make a class arbitrarily and nobody can question it or complain of it, the railroad company has complete power to put any rate within the range of rates on the article in question. Classification, of course, is for the purpose of putting under the rate all the articles that ought to be carried, the circumstances of whose transportation are such as to bring them in one class for one rate, and I think the interstate commerce commission ought to have the right, upon complaint made, to

have the right, upon complaint made, to readjust the classifications.

"I could go on and describe other features in which there ought to be improvements, but you are waiting for breakfast—and, so am I—and I merely throw out this thought because I know that your club has had to do with the interstate commence commission and the The President took his seat in the center of the front row, at his right interstate commerce commission, and it illustrates the thought I had when I wrote of the importance of such a collecstate and of a community like this in bringing about, in the course of a reasonably short time, by their expression and their action, justice to the community.

> eception."
> Following the address those present proceeded to do justice to the menu, which had been prepared. The menu card was a handsome affair, the first page bearing at the top, embossed in gold design, the coat of arms of the state of Utah, surmounted by an eagle in the same color mounted by an eagle in the same color and flanked by two American flags Un-derneath was the monogram of the Comderneath was the monogram of the Commercial club and the following inscription:
> "Breakfast tendered the Honorable William H. Taft, President of the United States, by the Commercial club, Saturday, September twenty-fifth, nineteen hundred and nine, Salt Lake City, Utah."
> On the second page, facing the menu, was the following inscription:
> "This is to certify that at a meeting of the board of governors of the Commercial club, Salt Lake City, Utah, held Tuesday, September fourteenth, nineteen hundred and nine, the Honorable William Howard Taft, President of the United States, was duly and unanimously elected an honorary member of the

New Flesh-Colored Product That Heals and Hides Skin Imper-

Heals and Hides Skin Imperfections.

A peculiar feature of poslam, a new skin discovery, is that it is naturally flesh-colored and contains no grease, so that when used on the face for the complexion, or for pimples, red noses, or any other inflammations, blemishes or discolorations, its presence cannot be detected. It can thus be applied in the daytime, the natural color of the skin being immediately restored and the actual healing and curing process accomplished in a few days. It can be had of any pharmacist who sells pure drugs. The F. J. Hill Drug Co. make a specialty of it. Fifty cents' worth will answer either for an admiring throng and to their director, Professor William A. Wetzell, that they are perfectly drilled, and the manner in which they went through their evolutions and rendered

AN ODD PRESENT

Golf Club From First Utah Locust Tree Is Given to Mr. Taft.

An interesting event growing out of the visit of President Taft to Salt Lake is the presentation to the nation's chief executive of a golf stick, made from the first locust tree planted in Utah by one of the three women in the first party of ploneers reaching this city in 1847. The seed from which the tree grew was brought over the plains and was planted by Harriet Decker Young on the grounds of the Beehive house, the tree executive of a golf stick, made from the

Feramorz Clawson, a great-grandson of Mrs. Young, preserved one of the limbs of the tree, and it was he who presents the golf stick to the President. The visit of President Taft to Salt Lake led Mr. Clawson to conceive the idea of having the limb made into a golf stick for the President, on account of the known fact that he is a devotee of the game. The inscription on the plate is
